F-5-52 Monrovia Bank Monrovia Private

C.1880

The Monrovia Bank with its recessed brick work, decorative brackets supporting the slate roof and curved scrolls on the roof line make the building the most architecturally significant building in the town of Monrovia.

The bank operated between 1880 and 1920 until the decline of the B&O Railroad which once serviced the area.

#### DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Monrovia Bank is a one story square hipped roof brick structure laid in common bond which faces south from the east side of Route 75 (Green Valley Road) in Monrovia. The building is three bays wide on each side. The original main entrance is located in the southeast corner of the building; it is twin doors, with a two light transom. The present door is located in the north east corner of the building. Located in the remaining bays on the south and east sides are double hung 1/1 windows with a arched double hung 1/1 windows with two light transoms, and header arches. Each window has a carved wood inset below the arch. Each bay on the south and east side is separated by recessed brick work. The hip roof is replaced asphalt and is connected to the main structure by a boxed cornice with a dentiled brick frieze. Brackets support the roof in the southeast corner. On the top of the structure is a series of decorative carved scrolls which are most unusual.

The entire structure is in excellent condition and is currently being used as an office.

#### STATEMENT OF SIGNIFICANCE

Built after 1873 since it does not appear on the Titus Atlas of Monrovia, the Monrovia Bank served this community until the early nineteenth century and met its decline with the decline of the Railroad.
